Output – 900kWe

We have a close working relationship with Marches Biogas, in particular Lucy Owen who has guided us to meet all the regulatory requirements.”

Fylde Fresh and Fabulous Ltd anaerobic digestion site was designed, built and commissioned in 2014 by Marches Biogas with an additional pasteurisation unit installed and commissioned during 2016.

Marches Biogas have provided compliance support throughout; initially creating and implementing an Environmental Management System to ensure the site complies with the facilities permit and aiding the site through audits carried out by the Environment Agency. More recently, Marches Biogas has assisted Fylde Fresh and Fabulous gaining accreditation for the BSI PAS110 Certification Scheme and meeting the AD Quality Protocol enabling them to sell the fit for purpose digestate.

“We have a close working relationship with Marches Biogas, in particular Lucy Owen who has guided us to meet all the regulatory requirements needed and assisted us in implementing the Environmental Management System and Quality Management System in order for us to pass environmental audits and gain PAS110 status.”

Simon Butcher, Director and Partner of Fylde Fresh and Fabulous Ltd.
